SUMMARY

B.Tech graduate in Computer Science and Engineering (AI) with a solid foundation in Data Structures, Algorithms, and OOP using C++ and Python. Experienced in developing full-stack web applications. Currently working as a Software Developer, developing ERP software for the paper industry. Solved 450+ coding problems across LeetCode and CodeChef. Seeking SDE roles to apply problem-solving skills in building scalable systems.

EDUCATION

Chhatrapati Shahu Ji Maharaj University, Kanpur, Uttar Pradesh

Dec 2021 - Jun 2025

Bachelor of Technology in Computer Science (Specialization in AI)

CGPA: 7.58/10.00

- **Relevant Coursework:** Object Oriented Programming, Data Structures and Algorithms, Operating System, Computer Networking, Database Management System, Artificial Intelligence, Machine Learning.

EXPERIENCE

Dataman Computer Systems Pvt. Ltd.

Aug 2025 – Present

Associate Software Developer

Kanpur, Uttar Pradesh

- Developed and maintained **ERP software** used by 100+ enterprise users for the paper industry using **Next.js, React and Tailwind CSS**, creating responsive and scalable user interfaces.
- Built and integrated frontend components with **REST APIs** to support ERP modules such as **inventory, production, and order management**.
- Implemented **authentication** and **role-based authorization**, ensuring access control across different ERP user roles.
- Improved application performance by optimizing **frontend logic** and **reducing page load time by 30%**, enhancing the overall user experience.
- Collaborated on backend development using **Node.js and ASP.NET**, worked with **SQL databases**, and used **Git for version control** during feature development and deployment.

PROJECTS

Vyapar Pustika (ERP Software) | Next JS, Node JS, Express JS, Postgres SQL, Tailwind CSS

[GitHub](#)

[Project Link](#)

- Designed and developed a **full-featured enterprise level software** featuring user registration (via Clerk), shopping cart, order management, and secure checkout workflows simulating real-world online-store experience.
- Built a robust **seller dashboard** offering inventory management, product additions, order tracking, and sales insights.
- Integrated **Inngest** for event handling, **Clerk** for authentication, **Cloudinary** for media management, making it suitable for production-ready deployment.

Sentimental Attendance System | Machine Learning, OpenCV, Node.js, Express.js, EJS, RESTful APIs

[GitHub](#)

- Developed a **real-time attendance system** that not only records attendance but also **analyzes facial expressions** to **recommend personalized poetry and songs**.
- Applied **facial emotion detection for six expressions** using **OpenCV** and **ML model having 91% accuracy**.
- Built scalable backend with **Node.js, Express.js & REST APIs**, & responsive frontend using **Bootstrap, HTML & CSS**.

Family Travel Planner | Node.js, PostgreSQL, EJS, CSS

[GitHub](#)

[Project Link](#)

- A **dynamic family travel tracker with world map visualization**, customizable member data and real-time updates.
- **Implemented advanced SQL joins** using PostgreSQL, with Node.js and EJS for complete full-stack functionality.

SKILLS

Languages: C/C++, Python, JavaScript, SQL.

Programming Skills: Object Oriented Programming, Data Structures and Algorithms, Linux, Version Control, DBMS

Technologies and Tools: React.js, Next.js, Node.js, Express.js, RESTful API, GitHub, Jupyter, Postman, Canva

Databases and analysis: MySQL, PostgreSQL, NumPy, Pandas, Matplotlib

ACHIEVEMENTS

- Solved 450+ problems at LeetCode (**Max Rating 1709**) [Link](#)
- Presented a Research Paper at ICRAECCT 2025, UIET-CSJMU on topic "Image Fusion Techniques in Computer Vision".
- Completed an advanced Udemy course in Mastering Data Structures & Algorithms using C++. [Certificate](#)
- Volunteered at AnsrCoach (a startup) to design web development video tutorials and documentation. [Certificate](#)
